The Senior member, without changing his residence from Crawfordville, will furnish his counsel and aid in all matters, and on all questions when it may be desired; and will give his special attention and attendance to all litigated cases and criminal trials in all the higher Courts, both State and Federal. feb5 d1m

GEORGE T. FRY,
ATTORNEY AT LAW,

Begs leave to inform the good people of Atlanta, and also those of Fulton, DeKalb, and adjoining counties, that he has located his office in Ball's Building, East side of Whitehall street, in the said city of Atlanta, where he may be found and consulted upon business, every day (Sundays excepted) from 7 o'clock, A. M., to 6 o'clock, P. M. He will give diligent, careful, and prompt attention to all business confided to his care.

He will make a specialty of the following grades of business, to-wit: The collection of debts, settlement of all money demands, and of all demands growing out of contracts between man and man, all matters appertaining to, or growing out of, the Homestead Law.

Parties desiring to avail themselves of the benefits intended to be conferred by the Homestead Law, are respectfully invited to come to my office for any information they may desire concerning the said law. Also, will attend specially to all matters in Bankruptcy; and he begs leave to say to the unfortunate debtor, that the time wherein you will be allowed the full benefit of the Bankrupt Law, will expire on the first day of January, 1869; after that time you must pay fifty per centum of your indebtedness, or else you cannot have the benefit of the law, except by the consent of a majority, in number and value, of your creditors, which consent you will not be likely to obtain.—If you are in debt $300, or upwards, and feel that you cannot pay out, without subjecting yourself and family to great hardships and inconvenience, come to my office, and I will assist you to be relieved from all your distresses and embarrassments, by filing a petition for you for that purpose.

Be sure to make application before the 31st day of December, or else you will be too late! too late!

The citizens are specially invited to come to my office to consult me on any business they may desire to have attended to. They will always find me in my office in a good humor, always glad to see you, and ready to give you a hearty, old fashioned welcome, and will always be ready to attend to your business for you.

Office over Alexander's Hardware and Bradfield's Drug Store, stairway running up between the two, on the same floor of the Southern and St. Louis Life Insurance offices.

Respectfully, GEO. T. FRY.

EVENING EDITION.

ATLANTA, GEORGIA, FEBRUARY 19

Personal.

Mr. Morgan, of Dougherty, took occasion this morning, in the House, to allude to the editor of this paper as "skulking behind his domicil." Mr. Morgan failed to comply with the announcement in our reply to his card, that we could be found at our office, and in taking advantage of his privilege as a member of the House, where we could have no opportunity to reply, clearly dodges the issue.

We are responsible for all we have said, and repeat the denouncement made in our Sunday's edition—we can be found at our office.

Horrible Murder.

We learn, says the Augusta Constitutionalist, from passengers on the Georgia train, that Mr. Chas. Axt, of Crawfordsville, Georgia, was found dead in his bed on yesterday morning, with his throat cut from ear to ear. He is said to have retired the night before in good health and spirits, and nothing is positively known of the cause of his death, but suspicion rests upon several parties. The coroner held an inquest yesterday evening, and we shall probably hear more of the particulars today. He was a quiet, unassuming citizen, about forty-five years of age, and in very moderate circumstances in life.

An Old Story.

The moral of the late Congressional disturbance was written many hundreds of years ago, says the Courier-Journal, and remains visible over a hundred volumes of Roman, Grecian, Florentine, Germanic, English, and French legislative history. It is brief and simple. The two houses of Congress engage in a scheme to chop off the powers of the Executive. They succeed, of course. Then they return to the Supreme Court, which they reduce to a standing committee. Having thus practically destroyed the two co-ordinate branches of the government, the magistracy and the judiciary, and lodged the entire authority of the State in themselves, they quarrel with one another. The House makes an issue with the Senate, and, as the lower body outnumbers the higher, it will have no trouble in carrying its point whenever it sees fit to push its issue to a direct conflict. This is the first step to anarchy, which is the vestibule of monarchy, and that is the direction of Radicalism.

Practical Reconstruction.

Last year's cotton crop of Georgia is estimated in value at forty millions of dollars, says the New York Herald, and it was not a favorable season. No wonder the cotton lands of the State have run up in price some fifty, some one hundred, and some two hundred, and even three hundred per cent. At this rate before the expiration of President Grant's term of office, the wealth and prosperity of our Southern States will be the wonder of the world.

Homes for the Negro.

Among the memorials presented in the House of Representatives on the 9th, was one by Mr. Phelps, of Maryland, asking that a portion of the public domain be appropriated to the exclusive use of the African race in America. The petition is numerously signed by citizens of Maryland and Virginia. No suggestion is made as to what part of the public domain should be assigned for this purpose.

A Handsome Monument.

The Marietta Journal has been shown, by Mr. Bisner, of the Georgia Marble Works, a handsome monument, thirteen fee thigh, erected in the city cemetery to the memory of the late Dr. J. M. McAfee. The marble in appearance and texture is equal to Italian and the workmanship is excellent.

Kennesaw, Georgia.

The Marietta Journal learns, from the Postmaster, that the name Big Shanty, seven miles above Marietta, on the Western and Atlantic Railroad, has been changed to Kennesaw.

Mr. Daniel G. Olcott, of Savannah committed suicide on Wednesday last, by shooting himself through the head with a pistol.

London population increases at the rate of 240,000 a year.

GEORGIA LEGISLATURE.

SENATE.

FRIDAY, February 19th 1869.

Senate was called to order by the President.

Prayer by Mr. Adams.

Journal of yesterday read and approved.

RECONSIDERATION.

Mr. BURNS moved to reconsider the bill adopted yesterday changing the time of meeting of the General Assembly to the 1st Wednesday in July.

Motion prevailed and bill referred to the Judiciary Committee.

THE MITCHELL CLAIM.

Mr. WINN moved to discharge the special order set down for to-day, being the consideration of the bill to retrocede five acres of land in Atlanta to the heirs of Samuel Mitchell.

Messrs. NUNNALLY, HUNGERFORD, WELLBORN AND HINTON opposed, and Messrs. Harris, Holcombe, Candler, Wooten, Smith, (7th) and Burns favored the motion.

Mr. WINN changed the motion to reconsider.

Mr. HARRIS demanded the yeas and nays.

The following is the vote:

Yeas—Adams, Adkins, Anderson, Bowers, Bruton, Burns, Candler, Corbitt, Dickey, Harris, Holcombe, Lester, Merrell, Sherman, Smith, (7th) Smith, (36th) Stringer, Welch, Winn and Wooten—20.

Nays—Collier, Fain, Gignilliat, Griffin, (21st) Hinton, Hungerford, Jones, McArthur, McCutchen, Moore, McWhorter, Nunnally, Richardson, Speer and Wellborn—15.

So the motion prevailed.

Mr. HARRIS offered a resolution, that the Superintendent of the Western and Atlantic Railroad be requested to furnish the Senate with any facts relative to the land memorialized to be retroceded to the heirs of Mitchell, at the earliest practicable moment.

Mr. HINTON moved to refer the resolution of Mr. Harris and amendments to the Judiciary Committee. Motion lost.

Mr. WELLBORN offered a resolution that the bill be recommitted to the same special committee, and the Chairman be instructed to request the House committee to meet with them at an early hour this afternoon, and request the Superintendent of the Western and Atlantic Railroad to submit any facts in his possession relative to this matter, at said meeting, and that said committee report to-morrow. Adopted.

The PRESIDENT left his seat and called Mr. Wooten, President *pro tem.* to the chair.

UNFINISHED BUSINESS.

Mr. BOWERS called attention to a resolution offered by him on Wednesday, pending action on which the Senate adjourned.

Mr. HOLCOMBE offered as a substitute, which was accepted by Mr. Bowers, that the messenger be authorized to employ Charles Patterson (colored) to assist him, at $3 per day, and he is hereby forbid from employing any one else at the public expense. Adopted.

SENATE BILLS THIRD READING.

To declare buying and selling cotton in the seed a misdemeanor. Tabled.

To alter and amend section 3496, of the Code. [Subjects wages of laborers over a certain amount to garnishment.] Judiciary Committee report against its passage. Report disagreed to.

HOUSE OF REPRESENTATIVES.

FRIDAY, February 19, 1869.

House met pursuant to adjournment.

Prayer by Rev. Mr. Crumley.

Journal read and approved.

Mr. MORGAN moved to reconsider so much of the proceedings of yesterday as relates to the adoption of the minority report.

He said that the minority report was untrue—false in several particulars. He said the minority had tried to whitewash Angier. He argued that the Governor was authorized to make the expenditure by the Railroad Committee.

Mr. BARNUM—Did the Railroad Committee have any such authority?

Mr. MORGAN—The majority report does not say they had the authority, but they nevertheless were consulted, and gave their approval, some of them, to this expenditure.

Mr. TUMLIN said that he had notified the gentleman before this report was made that the Railroad Committee had never authorized any such expenditure.

Mr. MORGAN—Some of them knew of it. Mr. Tumlin's statement to the contrary notwithstanding. He made an attack upon the Treasurer for using the interest of public funds. He was called to order by several members.

Mr. SCOTT, of Floyd, asked what this had to do with this report.

Mr. MORGAN said it had nothing to do with it; but the minority had seen fit to step outside to whitewash Mr. Angier, and he wanted to show him up. The majority did not believe there was any intention on the part of the Governor to hide this expenditure from the Legislature; they thought there was nothing in his failing to mention it in his message; and therefore, they passed it over without noticing it. Did Governor Bullock steal this money?—no one after investigating this will believe it.

Mr. SHUMATE—Did Governor Bullock ever ask an appropriation for this expenditure?

Mr. MORGAN—Did Gov. Johnson ever ask an appropriation to buy furniture.

Mr. HARPER, of Terrell—He did.

Mr. MORGAN—His message says he did not. We examined Mr. Kimball's testimony very carefully because he was interested. A Legislative body should never publish to the world statements that are not true. "Truth crushed to earth will rise again." He said the minority report was false and untrue. The majority report was true in every particular.

Mr. FOWLER—He would not notice the futile arguments of the gentleman from Dougherty. This minority report was made after a careful investigation, without favor to Governor Bullock or the Treasurer. The minority report was made by men who are responsible to this Legislature and to the world for it. The arguments used by the gentleman from Dougherty was so weak he would not notice them farther.

Mr. HARPER, of Terrell, said he wanted this question reconsidered that the House might vote upon it after a full ventilation of it. The gentleman from Dougherty seems to think it was pushed through in a hurry. He says you have cast this vote in a partizan spirit, that you were influenced by questions foreign to the issue. If his speech goes to the country without any denial from this body, it will injure us. He is a man of influence in his section. Who denies the statements made by this gentleman? (Several members answered, "I do.") He was not willing to make this a party question. He was a Democrat, and thought that reconstruction was accomplished. He had just returned from home this morning and had been appealed to by friends of the majority report to reconsider this question, because they had been gagged on yesterday—that the reports had not been discussed.

Mr. FOWLER—This majority report was printed and laid on the tables of members two or three days before it was brought up.

Mr. HARPER—I don't suppose a third of the members read it. He said that a reconsideration would not hurt Governor Bullock, nor drive Mr. Angier to the Democratic party.

Mr. SHUMATE—I ask wherein this minority report is false. It says that this expenditure was made without authority. Who denies it? It states that the Messrs. Kimball have spent $31 000 of the State's money. Who denies it? Is there any falsehood in that?

It says that Governor Bullock must pay this money, or the city of Atlanta must pay, or the State will lose it. Who denies this?

It says that Mr. Angier gave a clear and succinct report when called upon. Is this so? No man on this floor in his senses will say otherwise.

Has the Governor ever told this body where and how he spent this money? We have had no official notification of this expenditure.

If this minority report is vulnerable, why did not the gentleman show it? They say that after considering these reports they recommend that no appropriation be made to meet these expenditures. Is this not fair and faithful? Who objects to this? He appealed to members not to reconsider this question.

The previous question was called, and not sustained.

Mr. HALL of Meriwether—As the Chairman of the Finance Committee, I feel it due to myself and the House to say something about these reports. I feel that I have done justice in this matter. If I erred, it was from the head, and not from the heart. I regret to say that I think party spirit has had much to do with the adoption of this minority report. The main objections I have to this report is, that it charges the Governor with drawing money without authority. It had been published far and near that the Governor had used the money of the State improperly. This report takes rather a narrow view of this. I believe that Governor Bullock has been misrepresented. It is a fact that Governor Bullock gave this money reluctantly, and was authorized by statements made by the Railroad Committee to do so. I am not willing to pass any censure upon him. I believe the City Council of Atlanta should pay this money.

Mr. SISSON called attention to the contract made with the city.

Mr. HALL read it, he said that it was generally understood that no expense should accrue to the State.

Mr. FLOURNOY said he would say but little on the question. He thought it would be exceedingly unwise to reconsider a question that had been properly settled. It would take up the time of the House for two or three days to no purpose. This majority report has been before us several days, those who have not read it will not. This minority report is succinct, any school boy can understand it, and all the members did understand it when they voted on it.

Mr. MORGAN—Could this minority report have been understood had it not been for the exhibits to the majority report?

Mr. FLOURNOY—According to the gentleman's own statements they could easily be understood.

He denied the charge that the House had acted in a partisan manner in disposing of this question. We do not object to Gov. Bullock making a defense of himself, the newspapers were open to him.

The only question you have to settle is did he have the power to spend the State's money in fitting up this building in this magnificent manner.

The fact that Gov. Johnson has done this does not justify Governor Bullock. If a half dozen Governor's had done this would it be a custom that would justify Gov. Bullock in this expenditure? Was he authorized by law or by custom to do it. The minority report says he was not. Are you prepared to say that this is not so? They ask that no appropriation be made. No one can object to this.

Mr. ANDERSON—I apprehend when this House voted upon this question yesterday, they were prepared to vote. I think that a majority of this House have too much manhood to retrace their steps. I call the previous question. sustained.

The main question put and resulted as follows: yeas were—

Yeas—Messrs. Allen, Adkins, Ayer, Belcher, Bethune, Bradford, Bryant, Carson, Chambers, Cunningham, Darnell, Davis, Ellis of Gilmer, Franks, George, Hall of Meriwether, Hamilton, Haren, Harper of Terrell, Harper of Sumter, Hillyer, Holen, Johnson of Towns, Kelley, Lane, Lee, McCormick, Madden, Maull, Morgan, O'Neal, Osgood, Page, Perkins of Dawson, Prudden, Read, Rice, Saulter, Sewell, Tweedy, Williams of Haralson, Williams of Morgan, Zellars—43.

And motion prevailed.

Mr. BARRETT offered the following: Whereas, It is reported that the old furniture of the General Assembly is scattered about; Resolved, That a competent man be appointed to take charge of and keep it for the State.

Mr. O'NEAL moved to amend by adding the name of W. L. Hubbard as the man. Agreed to and the resolution adopted.

New Orleans Correspondence.

We publish this morning an interesting letter from the Crescent City. Our correspondent "Pedro," wields an elegant pen. He will grace the columns of THE CONSTITUTION at least once a week with a spicy and versatile communication.

"Fair Play."

We have received a communication signed "Fair Play," written by a gentleman of Milledgeville, who takes issue with us in stating that the resolution of Mr. McCombs, introduced into the House on Thursday, proposing to adjourn the Legislature to Milledgeville, met with a "sickly reception." For the benefit of the writer, we cheerfully give the vote—yeas 67, nays 42, as it required a two-thirds vote to suspend the rules.

Since writing the above, a facetious friend informs us that a movement is on foot looking to Mr. McComb's future residence in this city.

We congratulate the citizens of Atlanta on the prospect of so clever a gentleman becoming one in their midst.

Information to Railroad Travelers.

The following rules of the road are based upon legal decisions, says the Augusta Constitutionalist, and ought to be universally made known. The courts have decided that applicants for tickets on railroads can be rejected if they do not offer the exact amount of their fare. Conductors are not bound to make change. All railroad tickets are good till used; conditions good for this day only, or otherwise admitting time of genuineness, are of no account. Passengers who lose their tickets can be ejected from the cars, unless they purchase a second one. Passengers are bound to observe a decorum in the cars, and are bound to comply with all reasonable demands to show their tickets.

Standing on the platform, or otherwise violating the rules of the company, renders a person liable to be put off the train. No one has a right to monopolize more seats than he has paid for; any article in a seat, while the owner is temporarily absent, entitles him to the seat on his return.

A Bill to Encourage Immigration.

We have been handed by Mr. Shumate, of the House, one of the Committee to whom the original bill was referred, the bill, which we publish this morning, providing for the encouragement of immigration into this State. This bill was unanimously agreed upon by the Committee, composed of Messrs. Anderson, Saussey, Shumate, Lane, Hillyer, Gray and Phillips. We understand the bill will be introduced this morning, and as it meets the objections of many who opposed the original bill, and since we believe it is the best bill that can be passed at present, we trust it will be adopted.

On examination it will be seen that the bill provides for a domestic and foreign commissioner for the term of two years, specifying their duties and fixing the salaries of each. The sum to be appropriated is $10 000, and the manner of its expenditure distinctly set forth. In no event can this amount be transcended. The time will be sufficient in which to test the subject practically, and should it promise salutary results there will be no difficulty at the expiration in securing its extension.

The New Textile, Ramie.

Fully one-third of the entire commerce of the world is based on textiles and their fabrics, says the New York Herald, and any improvements in their production or handling affect the interests of mankind to an extent only surpassed by those which affect food. We have, therefore, viewed with great interest a specimen of the cleaned fibre of the ramie, which has been sent to us from Louisiana, where it has been introduced, and is now offered as a substitute for cotton in the labors of the planter. The plant is a native of Java, and was first brought to Europe in 1844, whereby the beauty and strength of its fibre, it received much attention in manufacturing circles. It is now stated that a considerable quantity is annually received there and manufactured into fabrics of the finest quality, excelling linen in strength, beauty, and finish, and rivalling silk in lustre. But what most concerns us now is the question of its cost of production. Is it cheap? Can it be produced cheaper than cotton?

The great disadvantages of cotton culture in our Southern States now are, first, that the labors of a cotton plantation are continuous from the beginning of January to the ending of December, involving the payment of twelve months wages to the agricultural laborer; and, second, that this unexampled cost of labor does not by any means secure a crop, as the cotton plant is very sensitive to an excess both of rain and dry weather, and is the frequent prey of the army worm. With these disadvantages the cotton planter rarely makes a profitable crop oftener than one season in three. If, therefore, he can find a substitute for the cotton plant, which shall give him equal marketable returns, with less cost of production and less liability to injury from natural causes during growth, he will be very likely to let cotton slide and turn his attention to the new article of production.

All of these advantages are claimed in behalf of the textile ramie. In a pamphlet now before us it is stated that the soil and climate of the Southern States are particularly adapted to its cultivation; that the plant will not be hurt by long continued wet or dry weather; that its fibre, being contained in the inner bark, cannot be injured by the cotton worm; that small capital is required to cultivate it, as it is easily propagated and cultivated, requiring no attention after becoming two feet high, and being perennial, does not require replanting; and that three crops can be harvested a year, each producing from nine to twelve hundred pounds of crude fibre per acre, which will sell at present for ten cents, gold, per pound in Europe. These are immense advantages in favor of the ramie, and if even one-half of them can be obtained cotton will soon be banished from our Southern plantations and a new process of reconstruction established.

What are now to be demonstrated are facile and cheap processes for breaking the stalk and machinery for carding and spinning the fibre. We may safely count on the inventive faculty of this mechanical age to produce these, and need only to suggest to inventors to look at once into the subject, as offering a remunerative field for their genius. The sample of the clean fibre now before us is beautifully white, soft and glossy, closely resembling silk in its appearance, and the fibre is very long and strong, and it is claimed that it readily receives the most delicate dyes without injury to its strength or lustre. We are not informed what processes it has passed through in preparation.

Dalton in a Whirl of Excitement—John's Mountain a Mass of Coal.

Considerable excitement has prevailed in our little city the past week, says the North Georgia Citizen, owing to the unearthing of a vast coal mine in John's Mountain, a few miles from Dalton. It appears that the fact has been known for years, but only within the past few days has it been made known. Great masses of coal are reported for miles around, and the lucky ones who have heretofore owned the rocky hills adjacent are now buoyant with the hope of anticipated fortunes. The coal is said to be of an excellent quality so far as tried. We fear the consequence of this sudden outburst, for if the excitement continues everybody in town will be out "boring for ile."

Affairs in Washington County.

As we like to let people know we are prospering in these parts, says the Central Georgian, we will just state that the people of Washington county have eschewed politics (they will be all right when voting time comes—we are one way in these piney woods,) and gone to work to make the largest crops they ever did make. Fertilizers will be extensively used, and we fear some are going to plant too much cotton; but we have hope, as most of them read the Georgian, that they will see and turn from the error of their ways before planting time. The freedmen are doing well and peace and harmony prevails.

Sunday Trains.

The North Georgia Citizen says: A resolution has been offered in our Legislature prohibiting the running of trains on the State Road on Sundays. Trains running on the Sabbath day should be stopped on all railroads. It is an unnecessary sin against God, and should not be tolerated by a Christian people, however unpopular it may be.

We learn from the Dawson Journal that $20,000 has already been subscribed to the establishment of a Cotton Factory in that town.

☞ The Baltimore Statesman says: "We have conversed with persons who have lately returned from business tours in different portions of the Southern country, extending as far as San Antonio, Texas, and they all give gratifying reports of the evidence of recuperation and of renewed hope and energy which the South exhibits. One of the most decided of these evidences is the value of Southern securities."

☞ Preliminary measures are taking for the construction of a railroad from Athens, Ga., to Rabun Gap, or some other point on the Rabun Gap Road. Such a connection would considerably shorten the distance from Louisiana and Cincinnati to Augusta and Savannah.

☞ The Central Georgian states, that Mr. Lewis Bullard, a well known citizen of that county, died at his residence four miles from Sandersville, on the 9th inst. Mr. Bullard represented Washington county a number of times in the Legislature, and has occupied many positions of trust and honor.

For The Constitution.]

Oh! blessed love, if love could be,
A living altar in the heart;
But separate on the earth from thee,
'Tis hollowness and mockery—
Whatever now thou art.

Thou knowest all those other days,
Dead, but all powerful to fling;
One shadow, where the sunbeam plays,
To wake the gladness of thy face,
Alas! how false a thing!

To us it matters little now,
Who did the wrong, or you or I;
When fell that careless word and how,
But if I felt the pang, I know,
It cost thee too a sigh.

Our lives were little streamlets then,
That gurgled onward, side by side,
Till passing outward, ne'er again;
They meet in valley, hill, or plain—
Thou could'st not be my bride.

We can not change the records writ,
The past is, sheaflike, garnered up,
With many flowers that bloomed in it,
And where I see two figures sit,
And drain one bitter cup!

Farewell! may happiness be thine,
Whatever else life might have been;
And brighter sun above thee shine,
And when thine evening days decline,
Make all these shadows sheen!

Peeler Cotton.

This remarkable variety of cotton was to-day shown us by Mr. H. R. Ware, who has the seed for sale in our city by Messrs. Pratt, Edwards & Co. After carefully examining the length, strength and great beauty of its staple, we were not astonished that its appearance in our great cotton marts should have created so much sensation amongst commercial men, and brought in market the price above the common variety of cotton which it so readily commands. For, by the New Orleans Price Current, now before us, not only is it quoted at from 40 to 50 per cent. above other varieties of cotton in price, but the same authority speaks of it as an "exceedingly prolific cotton," which seems substantiated not only by the New Orleans Bulletin, St. Louis Journal of Commerce and Vicksburg Times, but Mr. Ware holds accounts of sales of this cotton made in New York at 42c., and at Savannah, by Rust, Johnson & Locket, at 45c. per pound, made on the 5th day of this month. These parties are the growers of the seed they offer for sale, and have the most satisfactory evidence of their reliability, so there can be no question of the genuineness of the seed.

The following parties are the agents for the sale of the seed, as they are, also, for the Pettit Gulf Cotton Seed, direct from the Mississippi bottoms:

Pratt, Edwards & Co., Atlanta, Ga.; Johnson, Campbell & Co., Macon; E. P. Clayton & Co., Augusta; Rust & Johnson, Albany; Kennedy and Lotspeich, Selma; Gilmer & Browder, Montgomery; Wm. H. Thornton & Son, Talladega; Allen, Preer & Illges, Columbus. Jan27-daw2m

Mardi Gras—The Mystic Krewe of Comus.

Special Correspondence of The Constitution.]

NEW ORLEANS, Feb. 10, 1869.

Editor Constitution: Yesterday was a clear delightful day. And yesterday was Mardi Gras. Mardi Gras (for the benefit of your readers,) is Shrove Tuesday. Shrove Tuesday is the day preceding Ash Wednesday, which is the first day of Lent, during which all good Catholics and Episcopalians are required to abstain from all vain amusement. Therefore, they endeavor (and generally succeed) to compress as much fun and jollity into this one day as there would be in forty ordinary days. Hence, you will perceive at once, that while a rainy Sunday is unpleasant, a rainy Mardi Gras would be *horrible*. Mardi Gras is essentially a Catholic institution, and has its home in Catholic countries. In Italy and Spain it flourishes in its greatest perfection under the name of "Carnival." The French call it Mardi Gras. So far as the United States is concerned, it is peculiarly a New Orleans institution. Here, with Catholics who keep Lent and non-Catholics who do not join in the festivities of the occasion, it is a day of mirth, of jollity, of almost unrestrained license. It is a day of masquerade in the streets; closed by a night of masquerade in the ball room. Every where on the streets, you see marks of all kinds, forms and colors. Men dressed like women, and women as men; both as Kings and Queens, William Tells, Chinese, Mandarins, Grand Turks, Indians, Negroes, Donkeys, Humpty Dumpty, Black Crook, White Fawn, and some in the likeness of nothing in the heavens above, the earth beneath, nor in the waters under the earth. From early morn till night the streets are thronged with this motley assemblage; those who masked enjoyed their masquerade, and those who did not, enjoyed seeing those who did. With night comes "Ye Mystick Krewe of Comus," springing up as if by magic, near the Clay statue in Canal street, and forming a procession flanked on either side by hundreds of lamps, march up Camp as far as St. Joseph, then turn into St. Charles street—stop at the City Hall, salute the Mayor, and then resume their march to the Orphan Home. To describe this procession so that it could be understood by those who have never witnessed such a scene, is beyond my power. Partly to save time, but more because it is better than any thing I could do myself, I extract the following description from the Times of this morning:

The first general observation made about these tableaux was that each sense was represented by a palid antique statue, or what appeared to be such. The first and most striking of those personated was Phœbus in his car of light, drawn by four coursers. What appeared to be the other of these designs was Ceres as the goddess of Fruit; Orpheus as the type of Music; Flora as the representative of Smell, and Venus in the remaining role of that of Touch. These emblematic representations gave the performers an opportunity of personating in a fantastic and amusing manner, various species of animals, insects, fruits and flowers. The Genius of Decay, strikingly represented with the various marks of his effacing fingers in the division illustrative of Touch, upon some of the monuments of antiquity. These ruins were represented by the shafts and capitals of pillars, which hinted at Nineveh or Babylon, and that with an Egyptian sphynx, the design was well carried out. Two others of the most striking figures were a bell-cow, as indicative of sound, and a representation of the gigantic personage who in nursery rhyme could smell the blood of an Englishman. Possibly, however, if this figure had been represented with a bundle of the odoriferous city money, or if the figure of the Street Commissioner had been substituted as the type of the stench arising from the streets and gutters, the idea would have been still more readily understood by most of the spectators.

To say the Opera House was crowded, conveys but a limited idea of the density with which it was packed. Ladies in elegant toilettes, tasteful coiffures, and blazing with diamonds, occupied every seat. The Lords of Creation, so-called, made the best disposition of themselves practicable. The tableaux by the Mystick Krewe, were the same as the procession described in the extract from the Times, and on their conclusion, which was about 12 o'clock, (when the Krewe disappeared as mysteriously as they came,) the younger portion of the audience thronged to the parquette which had previously been floored over for the dance, while the more sedate, like myself, went to their homes.

Notwithstanding the universal merriment, and unusual license allowed, but few arrests were made during the day. A few men were uproarious by fusil oil or some other poison, and an occasional overhappy woman, who allowed her enjoyment to overcome her sense of propriety, reached the station house. But, compared with the multitude who devoted the day to unrestrained pleasure, they were as nothing. This is doubtless owing, in a great measure, to the admirable police arrangements which had been made, and which went into effect on that morning, but it is also due in part to the fact that Mardi Gras is considered by our population as a day in which they are not only to enjoy pleasure themselves, but to contribute to the pleasure of others as well.

But Mardi Gras is over, and although, I have by no means exhausted the subject, I might, by continuing, exhaust the patience of your readers, and take up more of your valuable space than you would care to devote to it. PEDRO.

Cotton Growers' Association.

A meeting of the Board of National Cotton Growers' Association of Planters and Manufacturers was held at Baltimore on the 10th inst. Members were present from all parts of the Union, and reports were made by standing committees on the production and consumption of cotton, and its present and future supply. The Association adjourned to meet at a call of the Executive committee.

Seven years ago the PLANTATION BITTERS were but little known. To-day there is not a nook or corner of land where they are not found and used. The sale has reached the enormous number of Five Millions of Bottles annually, and it is constantly increasing. It only shows what can be done with a really good medicine, and a systematic course of making it known. Perhaps no medicine in the world was ever so deservedly popular as the PLANTATION BITTERS. Go where you will, among the rich or poor, and you will always find these Bitters in use. Their merit has become an established fact, and we cordially recommend them in cases of dyspepsia, loss of appetite, chills and fever, headache, etc., etc.

CONGRESSIONAL.

WASHINGTON, Feb. 19.—The House considered army appropriations. All amendments reducing ordinary appropriations were agreed to, and the following adopted as a substitute for the amendment reducing the army:

"Until the army is reduced to twenty regiments of infantry, five of cavalry and five of artillery, no new commissions shall be issued; regiments are to be consolidated as rapidly as the reduction of officers will permit; no appointments or promotions to be allowed in any department of the army," and the bill passed.

This action defeats Butler's amendment discontinuing the rank of General of the Army.

The conference committee's report on naval affairs was adopted. It forbids promotions or appointments until the officers are reduced to the required number. Recess.

Matter referred to Chief of Police.

Good Advice.

The weekly cotton circular of William Bryce & Co., New York says:

"While we hope for a large crop of cotton next season, we would warn our planter friends not to neglect raising enough corn for their own use, as the West will not be stimulated to a heavy corn crop, after the results of the one of this year; and the experience of the past four years has proved that it is cheaper to raise corn than to sell cotton with which to buy it."

L. H. BRADFIELD'S COLUMN.

DR. J. BRADFIELD'S

FEMALE REGULATOR,

Woman's Best Friend

THIS valuable Medicine is prepared for Women exclusively, and to be used by women only. It is adapted especially to those cases where the WOMB is disordered, and will cure any irregularity in the "menses," except in such cases as require a surgical operation. As these last are very rare, the FEMALE REGULATOR is of almost universal application. In a sudden check of the "monthly courses" from COLD, trouble of mind or like cause, it acts like a charm, by RE-OPENING THE DISCHARGE IN EVERY INSTANCE, thus relieving the fever, headache, pain in the small of the back and "lower stomach," flushes of heat about the face, chilly sensations, burning of the eyelids and general restlessness. Taken in time all these symptoms pass away immediately, without injury to the constitution. Frequently, however, the proper remedy is not applied in time, the disease becomes chronic, and the foundation laid for numberless evils to the constitution of the woman. The next "turn" comes around and there is no "show," or perhaps the "whites" will appear. There will be some uneasiness about the womb, but very little or none of the natural fluid escaping. The complexion becomes sallow, bowels swollen, a sort of greenish caste about the face, constant dull aching pains in the head, weight in the lower stomach and back, with or without whites, palpitations of the heart, pallor, exhaustion, indigestion, weariness, langour, aching across the loins, loss of appetite, pain in the breast, tightness across the chest, cough and giddiness. If still allowed to go on "green sickness" will be fully developed—the headache becomes severe, with loss of memory, diminishing sensibility, SICK STOMACH, dyspepsia no relish for food, loss of flesh, increased fluttering of the heart, SWELLING OF THE FEET, legs and body and occasional spitting of blood. The slightest effort causes HURRIED BREATHING, almost suffocation. The skin is flabby and a "doughy feel." This is a sad picture, but it is the condition of thousands of women between the ages of 15 and 45 who are brought to the verge of the grave by ignorance or neglect to take the proper remedy. To all who are afflicted with any of the symptoms above mentioned, in connection with an irregularity of the "monthly sickness," we earnestly say TAKE DR. J. BRADFIELD'S FEMALE REGULATOR. A few ounces taken, you will at once experience its benefits, and with a little patience you will be fully restored to health.

This remedy has been extensively used for upwards of twenty years by many of the most experienced and successful Physicians of Georgia. We repeat, that Dr. J. BRADFIELD'S FEMALE REGULATOR is prepared for WOMEN, and to be used by Women only.

A trial is all we ask.

ATLANTA, Ga., December [illegible] 1868.

Dr. J. BRADFIELD—Dear Sir: I take pleasure in stating that some time previous to the late war, I used, with the utmost success, on a servant girl, your FEMALE REGULATOR, prepared then at Bradfield's Drug Store, West Point, Ga. She had been suffering severely from suppressed menstruation, and this Medicine soon restored her to health. She is, to-day, living in Atlanta, sound and well.

I will state, further, that I know of its being used, with equal success, on a servant girl of my brother-in-law, Professor Rutherford, of Athens, Ga. This woman had, I think, been diseased for six years. She was a house servant, and was cured, up to the time of "freedom." I do not hesitate to indorse your preparation for the purposes for which you recommend it.

Yours truly, JNO. C. WHITNER.

STATE OF GEORGIA, TROUP COUNTY.

This is to certify that I have examined the recipe of Dr. Joseph Bradfield, of this county, and as a medical man, pronounce it to be a combination of Medicines of great merit in the treatment of all the diseases of females for which he recommends it. WM P. BEASLEY, M. D.

PRETTY GIRLS.—The "local" of the Columbus Sun and Times says that "Columbus is raising more pretty girls than any place in the country. It is the choicest crop' of (y) ears." If you want to see handsome girls, Mr. Local, just come to Atlanta. The rosiest cheeks, the brightest eyes, the sweetest lips, the plumpest forms the neatest ankles, and the smallest feet, characterize our Atlanta girls. We will wager an oyster supper at Pease's that if the Local of the Sun and Times were to come here and catch a glimpse of one of our Atlanta girls, he would linger here for ever. Even our widows are captivating, and the great reason why the Legislature does not adjourn is not on account of the nine dollars per day, but on account of the attractions of golden curls and sparkling eyes. The members forget the cares of State while basking in the smiles of beauty. Come along, Mr. Local.

READ, O WOMAN!—As health is the greatest blessing on earth, so is disease the greatest curse. The first wish of the heart, therefore, in a temporal view should be health. Nor is this all. As disease renders us unfit to perform the various duties appropriate to our station in life, there is a moral obligation resting upon us to preserve our physical integrity, by using the means at hand for repelling disease.

Now there is nothing so destructive to health in females as a continued *suppression of the menses*. It is a condition which makes a woman useless to herself and a burden to her friends. Dr. J. Bradfield's *Female Regulator, Woman's best Friend*, is the only certain cure. Lose not a moment in embracing the remedy. feb14-tf

Word Power.

Among the numerous illustrations given by Rev. H. H. Tucker in the course of his lecture on the above named subject, before the Georgia Historical Society, on the 12th instant, was one of an eminently practical nature, and that was the power which the word "dollar" is made to exercise upon the minds of the producing classes of the country. The distinguished lecturer remarked that the time was when the word "dollar" conveyed the idea of a piece of money composed of either silver or gold, which was equal in value to one hundred cents, but now what is called a dollar is composed of a slip of paper, of a green color, which is only worth about seventy-four cents; and while many persons suppose they are getting a dollar for four pounds of cotton, they are in truth only getting seventy-four cents.

This delusion is attempted to be kept up by all the prices current and money articles which make their appearance in the commercial newspapers in the country. Instead of saying that a dollar greenback is only worth seventy-four cents, they say gold is worth one hundred and thirty-four cents, meaning that one hundred cents in gold is equal to one hundred and thirty-four cents in greenbacks. Why not tell the honest truth and say greenbacks are twenty-six cents below par instead of saying that gold is thirty-four cents above par? Gold is the standard of value in spite of the *ipse dixit* of money changers and bogus statesmen to the contrary.—*Savannah Republican.*

What Next!

Governor Bullock is certainly one of the boldest, most reckless and unscrupulous men that ever occupied a Gubernatorial chair. His most recent act of usurpation is giving certificates of election to the delegation in the Fortieth Congress to serve throughout the Forty-first Congress. The pretence is that the Constitutional Convention intended the persons elected in April, 1867, to fill out the unexpired term of the fortieth and the full term of the forty-first Congress. There would be some excuse if the Governor believed this story; but he cannot believe it—he was a member of the Convention and knows better. The proposition is unheard of, and in direct violation of the Constitution of the United States. Two years constitutes a Congress, and one vote by such constituent cannot send a man to two Congresses. Under Bullock's absurd theory our delegation were elected for four years instead of two—rather, the unexpired portion of two years. It sometimes occurs that a member is elected to fill a vacancy also for a regular term at the same time; but there are always *two* boxes and *two* sets of ballots—the managers of the election distinctly stating the particular Congress each box represented. Such ridiculous and high-handed proceedings are fast winning for the Governor the contempt of his party friends in Congress.—*Augusta News.*

☞ From all parts of Middle Tennessee we hear most encouraging accounts of the wheat crop. Should the season continue as favorable as since the beginning of the year, the largest yield in the history of the State may be confidently anticipated. The area of land planted in this cereal is much more extensive than ever before, while unusual care was taken in the preparation of the soil.—*Nashville Banner, 13th.*

The Daily Constitution.

ATLANTA, GEORGIA, FEBRUARY 19

BY TELEGRAPH.

ASSOCIATED PRESS DISPATCHES

FROM WASHINGTON.

CONGRESSIONAL.

WASHINGTON, February 19.—SENATE.—The bill regarding Farragut's captures at New Orleans, was passed, and goes to the President for his signature.

The bill allowing a $190,000 to the destroyers of the cruiser Alabama, was passed, and goes to the President.

HOUSE.—The House is considering the army appropriation bill.

The Supreme Court, on motion of Mr. Evarts, issued a certificate of division in the District Court of Virginia, regarding Mr. Davis' case, which was dismissed on account of a *nol prosequi* in the Court below.

An amendment was offered to the army appropriation bill. It authorizes the President, after March 1st, to consolidate the infantry regiments to thirty; to consolidate the artillery and ordnance corps; to consolidate the quartermaster's subsistence and pay departments; to reduce the staff as fast as the reduction of the army permits.

An amendment by Butler, discontinuing the title of General, but continuing that of Lieutenant-General of the army, was adopted by a vote of 57 to 56.

In opposing the reduction, Mr. Garfield said not a day passes without petitions from Southern States for more troops.

HAVANA, February 19.—Ports without custom houses were proclaimed closed at Lagua on the 7th.

The insurgents burned the railroad at La Conices.

MAUSENILLO, February 14th.—A column has arrived from Bayano with 1,000 women and children, refugees. The troops were harrassed the entire route by the insurgents.

MADRID, February 19.—D'Acree issued an order establishing uniform legal jurisdiction and abolishing ecclesiastical Courts, and modifying the financial condition in the Colonies.

PARIS, February 19.—Conference met, and the reply of Greece was satisfactory. A resolution was adopted, whereby the Great Powers reserve to themselves the right to protect the lives, property and interests of christian inhabitants. Turkey's representative signed the protocol. The Conference is dissolved.

General Grant's Cabinet.

In spite of General Grant's reticence the name of the "Premier" for the new administration has leaked out, and it can be semi-officially stated that the portfolio of State will be placed in charge of the Hon. William Pitt Fessenden, of Maine. This much being known, the complexion of the rest of the Cabinet may be guessed at. Suffice it to say that a gentleman well posted informs your correspondent that the announcement of the Cabinet will astonish the extreme Radicals, and that Gen. Grant himself is anticipating an effort on their part to smother his administration.

There is no doubt that Mr. Evarts will be continued as Atttorney-General, but it is not true that Gen. Grant desires to place the War or Navy Department in charge of officers in the military and naval service. He sanctioned or approved the confirmation of Gen. Schofield at the time in consequence only of the peculiar relation existing between President Johnson and himself. He declared to a Senator who announced to him Schofield's nomination that no one could be more opposed to such appointments than himself and that he had favored Schofield's appointment for the reason stated.—*Washington letter in Baltimore Gazette.*

DARBY'S

Prophylactic Fluid.

Letter from Hon. Alex. H. Stephens, of Georgia.

CRAWFORDSVILLE, GA., Sept. 29th, 1869.

Darby's Prophylactic Fluid is an article of little cost, but great value Its domestic as well as medical uses are numerous, while its specialities are most wonderful. I have not been without it for ten years, and no head of a family who can afford to have it should be without it.

ALEX. H STEPHENS.

The Wonderful Family Medicine.

Letter from the Surgeon General of the late Confederate States.

RICHMOND, VA., Jan'y 14, 1868.

John Darby & Co., No. 160 William St., N. Y.

Gentlemen: I have received your letter of the 15th of December, 1866, calling my attention to your (Darby's Prophylatic) Fluid.

I most cheerfully state that the Fluid was furnished to, and extensively used by the Surgeons in charge of General Hospitals in the Confederate service with great benefit to the patients—all the surgeons making a favorable report—a great deal of it was used in the hospitals.

Very respectfully, your ob't serv't,
SAM'L PRESTON MOORE, M. D.

THE ASTONISHING DISINFECTANT.

EMERY COLLEGE, OXFORD, GA.,
December 28th, 1868.

Prof. Darby: Dear Sir—Having not been engaged for many years in the active duties of the Medical Profession, I am only superficially acquainted with the claims of your Prophylatic Fluid, but am well acquainted with its chemical elements.

While, therefore, I cannot speak experimentally of the value of the compound, yet the disinfecting and Therapeutic properties of the agents employed in its composition, together with the well known reputation of its discoverer, as a chemist, authorize me to regard its merits as of a high order;—on the whole it must be considered as a valuable contribution to the class of articles to which it belongs.

These views, I may add, are sustained by the testimony of many competent judges, who have tested its properties.

Believe me, dear sir, yours respectfully,
A. MEANS, M.D., LL.D.

ALABAMA INSANE HOSPITAL,
TUSCALOOSA, December 12, 1868.

Messrs. John Darby & Co., 160 William St., N. Y.

Gentlemen:—I received your Circulars of the 10th inst., asking an expression of opinion from me as to the merits of your Prophylatic Fluid. The preparation has been so generally used by the profession and public at large, and so universally esteemed, that it seems to me to need no further recommendation.

As a Disinfectant, and remedial agent too, when indicated, it is not excel led by any similar preparation. We use per manganic preparations very extensively in this Hospital, and could not do without them. I consider yours the best and most elegant preparation of the kind manufactured.

Respectfully yours, &c.,
P. BRYCE, M. D.,
Sup't and Phys'n Ala. Insane Hospital.

A Perfect Pain Killer.

WESLEYAN FEMALE COLLEGE,
STAUNTON, VA., Jan. 9, 1869.

Prof. Darby;—When I was President of the LaGrange Female College of Georgia, I used your Prophylactic Fluid in the College with decided success. Both as a disinfectant and as a remedy for sores and burns, etc., it was efficacious and proved o be what it is represented. Every family and public Institution ought to have it. I wish you great success in the sale of it.

WM. A. HARRIS, D.D.
Pres. W. F. College, Staunton, Va.

Never was there a family medicine so highly recommended as this. Try it and you will never regret it.

Let every country merchant visiting New York this spring put this article in his list. But dont wait—Order at once.

And so we might fill this entire paper with recommendations from the very best men in the country.

There is no question that this is a most wonderful and useful article as a disinfectant, and for wounds, sores, burns, poisons, colic, as a tooth wash, general purifier, &c., &c.

Every Druggist or Country Merchant has it for sale.

TESTIMONIALS:

We select the following extracts for the benefit of those who have not used Rhodes' "Standard" Manure:

S. Wyatt, Esq., of Allington Plantation, near Waynesboro, Ga., writes as follows to Messrs. B M. Rhodes & Co:

"Your Phosphate I am highly delighted with; I gave it a fair trial along with several other Standard Manures, and I regard it fully equal if not superior to the best of them. On one field of 100 acres, that I am sure would not, in its natural state, have produced over 400 lbs. of seed cotton to the acre, I have already gathered 700 pounds, and think I shall get fully 200 pounds more.

"Two other fields of 100 acres, better land, I have gathered, at two pickings, over 1,000 pounds to the acre of seed cotton, and think I shall get 200 pounds more.

"I tried it, also, on corn, and found it very good, but not equal in its results to the cotton crop. Several of my neighbors, whose lands adjoin my own, and is pretty much the same character of land who used no fertilizer at all, have signally failed, making no more than half a crop, if so much as that Where I applied Rhodes' Phosphate the cotton was heavily fruited, bols larger, the staple longer, stouter and better than where none was used, so much so that any one, even though he may never have seen the growth before, could readily see it. The only objection to it is, it causes the cotton to open faster than we can possibly gather it—at least, such is my experience."

T. C. Howard, Esq., of Darien, Ga., writes as follows:

"It is proper that I should say the results of the use of your fertilizer have been very marked and indeed surprising I have made more cotton by its aid on worn out land, that has not been in cultivation in two years past, than I have been able to do on the best swamp or bottom land on my place in Mississippi."

ATHENS, GA., January 23, 1869.

Messrs. P. P. Pease & Co., Atlanta: I applied the two tons of Rhodes' Super-Phosphate, which you furnished me last year, at the rate of 400 pounds to the acre, on thin land, considerably exhausted by continued cultivation, without manure, and have no hesitation in saying that it is an excellent fertilizer for cotton. On the eight acres to which I applied it, I picked upwards of 8,000 pounds of seed cotton—more than double what the land would have produced without the fertilizer. It is also proper to mention, that while the caterpillars stripped all the leaves and young bolls off an adjoining patch, manured with Dickson's Mixture, commencing their ravages in August, they did not attack that manured with Rhodes' Super-Phosphate until the first week in October.

WILLIAM M. BROWNE.

Thousands of certificates and letters could be published, showing the value of Rhodes' "Standard," a quick and permanent fertilizer.

The Soluble Pacific Guano.

TESTIMONIALS:

NEAR ATLANTA, GA., December 10th, 1868.

Messrs. Adair & Brother: I applied Soluble Pacific Guano, procured from you, at the rate of 200 pounds per acre on cotton I am satisfied its use produced a crop three times greater than the land would produce without it. GEO. S. KEY.

NEAR ATLANTA, GA., Dec. 1, 1868.

Messrs. Adair & Brother: I applied 300 pounds per acre of Soluble Pacific Guano, procured from you. Notwithstanding a ten weeks' drought and the attack of the caterpillar, I gathered 850 pounds per acre. From the same land, without the Guano, I gathered only 200 pounds cotton—say less than one-fourth the quantity. E. MORRIS.

ATLANTA, GA., Dec. 12th, 1868.

Messrs. Adair & Brother: I used this year the Soluble Pacific Guano, bought of you, at the rate of 100 pounds per acre on cotton planted three feet apart in the drill. I am confident it is a pure article and believe it increased the yield double, notwithstanding a six weeks' drought and serious attack of caterpillar. J. M. CALHOUN.

ATLANTA, GA., Dec. 10th, 1868.

Messrs. Adair & Brother, Gents: I bought of you last spring one ton Soluble Pacific Guano and put it on cotton. It came fully up to my expectations and I cheerfully recommend it to planters as a profitable fertilizer for cotton. M. G. DOBBINS.

COLUMBUS, GA., December, 1868.

John S. Reese & Co., Dear Sirs: Another season confirms my previously expressed convictions, that the Soluble Pacific Guano, as compared with Peruvian, is fully as good—indeed better. I have now tested it sufficiently, using each side by side for two seasons, applying the same weight of each per acre, and in every case the Pacific has given the best results on cotton, corn, potatoes and small grain, and the testimony I have from a great many planters confirms my experience.

WM. H. YOUNG.

Charles A. Peabody, Esq., of Lee county, Alabama, in a letter to William H. Young, says: "The Peruvian Guano I had before used, and know it to be an invaluable fertilizer for cotton I now find the Soluble Pacific to be equally as good. At the same price I would as soon have it for cotton or corn as the Peruvian; some of my hands insist that it is better." dec15-d3m
